PROFILE

Previously a freelance storyboard artist in the animation industry with classical animation training, I joined the tech industry to seek new opportunities that would push my problem solving skills. I'm currently seeking opportunities that allow me to both combine my visual and coding skills, as well as expand my knowledge front-end/full-stack development.

EDUCATION

Web Development Immersive Bootcamp, Juno College of Technology
Toronto

Jan 2020 — Mar 2020

Studied as a fulltime student of Juno's Immersive Bootcamp for front-end web development!
HTML5, CSS3, SCSS, Accessibility, Responsive Design, RESTful API, FTP, Javascript, jQuery, React, Firebase, Github, Github Collaboration, Pair Programming

Web Development and Javascript Continuing Education, Juno College of Technology
Toronto

Aug 2019 — Dec 2019

Learned the basics of HTML/CSS and JavaScript, including responsive web development, accessibility best practices, jQuery and basic RESTful API interaction.

Animation, Cambrian College
Sudbury

Jun 2020 — Jun 2020

Studied traditional, 2D digital and 3D animation at Cambrian College. Learned about the animation pipeline, including participating in the various production phases. Participated in a fast-paced, demanding environment to create production quality art consistently to a timeline.

VOLUNTEER WORK

Student Mentor
Juno College of Technology

Jun 2020 — Present

- Assisting bootcamp students debug project issues/explaining core concepts for better understanding during weekly extra help using HelpCue. Some topics include: REST APIs, Axios, Asynchronous JavaScript, and React
- Being available for questions and troubleshooting for students during Juno's 3 hour free "JavaScript 101" online Zoom webinar course for prospective students

Shopify Developer
Digital Main Street

May 2020 — Present

Help set up functional Shopify stores to save small businesses and artists in the city of Toronto and the GTA.
