PROFILE

Previously a freelance storyboard artist in the animation industry with classical animation training, I joined the tech industry to seek new opportunities that would push my problem solving skills. I'm currently seeking opportunities that will allow me to combine my visual and coding knowledge and/or expand my skills in both front-end and full-stack development!

★ FEATURED PROJECTS

Jump Game, http://celesteellerby.com/jump/
A simple HTML/CSS jumping game made purely with jQuery.

Find that GIF!, http://www.celesteellerby.com/gif-search/
A React app that allows the user to find and share the trending gifs and use queries.

Beyond Bootcamp Chat, https://beyondbootcampchat.herokuapp.com/
Using express.js, node.js, MongoDB and vanilla JavaScript, this is a full-stack real-time chat app.

★ VOLUNTEER WORK

Student Mentor, Juno College of Technology
June 2020 — Present

- Assisting bootcamp students debug project issues/explaining core concepts for better understanding during weekly extra help using HelpCue. Some topics include: REST APIs, Axios, Asynchronous JavaScript, and React
- Being available for questions and troubleshooting for students during Juno's 3 hour free "JavaScript 101" online Zoom webinar course for prospective students

Shopify Developer, Digital Main Street
May 2020 — Present

Help set up functional Shopify stores to save small businesses and artists in the city of Toronto and the GTA.

🎓 EDUCATION

Web Development Immersive Bootcamp, Juno College of Technology, Toronto
January 2020 — March 2020

Web Development and Javascript Continuing Education, Juno College of Technology, Toronto
August 2019 — December 2019

Animation, Cambrian College, Sudbury
June 2020 — June 2020

💼 EMPLOYMENT HISTORY

Freelance Storyboard Artist at Yowza Animation, Toronto
March 2019 — May 2019

Responsible for 2 minutes of storyboard timed out in 1 week, with 2 rounds of weekly notes afterwards. Had a great time working on preschool musical sequences!

Intern 3D Layout Artist and Filming Assistant at Gallus Entertainment, Sudbury
June 2017 — August 2017

As a 3D layout artist, was responsible for 25 layouts a day. Followed notes and learned about the 3D pipeline. As a filming assistant, assisted director with live action filming. Tracked shots, slated, set up shot and set, etc.
